A letter please

December 15, 1986

William D. Hobbs, Chairman
The Council for Tobacco Research-USA, Inc.
900 Third Avenue
New York, New York 10022

Dear Sir:

I am writing this letter with the hope of eventually submitting a grant proposal to the Council for Tobacco Research-USA. I believe your organization is a most appropriate agency to provide funds to conduct research relative to the chemoprevention of cancer. We have been studying the ability of ellagic acid, a naturally-occurring compound, to prevent DNA alkylation and mutagenesis induced by N-nitroso compounds. I am enclosing a recent reprint on our published research in this field. I would appreciate further information in regard to submitting a grant proposal in this area.

Thank you for your assistance.

Sincerely,

B Gold
